

AMENDMENTS TO THE SPECIFICATION

The following amendments to the specification are provided. For the Examiner's convenience, the provided paragraph reference numerals correspond to U.S. Patent Application Publication No. 2004/0214541 of the instant application.

Please replace paragraph [0081] with the following amended paragraph:

[0081] When captured data for transmission are still image data, the image converter 139 converts the size of the image to fit with the display size of a receiving mobile communication terminal. For example, the frame image data are converted into ~~128×12~~ 128x112 dots or 128×96 dots size according to the standard of a mobile communication supplier.

Please replace paragraph [0104] with the following amended paragraph:

[0104] Meanwhile, when a still image is transmitted from phone to phone as described above, the display size of a reception terminal may differ from the display standard of a network service provider. Therefore, the still image must be converted into an appropriate size (for example, ~~128×12~~ 128x112 or 128×96 dots) through the image converter 139.
